

SMALL SUPPLIES ADD UP

There are certain smallwares that are a necessity for any pizza restaurant:

- *Pizza cutters*
- *Pizza peels*
- *Pizza knives*
- *Rolling pins*
- *Dough dockers*
- *Pizza pans*

Also, if you plan on making deliveries with your pizza establishment, delivery bags and pizza racks are a good choice to have. Delivery bags keep your pizzas hot for customers and pizza racks will help keep your orders organized. Talk to your local dealer about purchasing smaller pizza supplies. This will help save you time and shipping costs.

Control your heater/proofer cabinets.

Cabinet controls may be manual or electronic; in the latter case, a multiple timer-setting capability is available. On some models, electronic control systems can monitor up to six, independent timers for each compartment, to facilitate "first-in, first-out" product rotation. A food rotation system can also make your operation more efficient and will cut down your risk of foodborne illness outbreaks. To learn more visit: www.energystar.gov

Win-Holt - Non-Insulated Heater/Proofer

- Heavy duty aluminum construction
- Air baffle and circulating air blower provides even heat distribution
- Dual proof/heat control: "Proof" mode: Humidity from 30% - 100%, temps up to 115°F
